| <p>Description: Mercedes-Benz AG ("MBAG"), the manufacturer of Mercedes-Benz vehicles, has determined that on certain Model Year ("MY") 2019 - 2021 CLA-Class (118 platform), GLE/GLS-Class (167 platform), A-Class (177 platform), E-Class (213 platform), E-Class Coupe/Convertible (238 platform), GLA/GLB-Class (247 platform), GLC-Class (253 platform), CLS-Class (257 platform), and AMG GT-Class 4-doors Coupe (290 platform) vehicles the MBUX multimedia system software might not meet specifications. Under very specific conditions, the MBUX multimedia system might not start and the display might remain black, or could reboot unintentionally after 50 seconds of initial startup. Accordingly, the rearview camera image might not be displayed or the display might be interrupted which could increase a risk of a crash or injury. Either an authorized Mercedes-Benz dealer or an over-the-air ("OTA") update will update the communication module software for the MBUX system on the affected vehicles. All customers will be mailed recall notification letters as required under federal regulations. For vehicles with a "Mercedes Me" subscription service, the software update will be performed OTA and so a dealer visit is not required.</p> <p>Under very specific conditions, the MBUX multimedia system might not start and the display might remain black, or could reboot unintentionally after 50 seconds of initial startup. Manufacturer Safety recall issued

- NHTSA #23V732
- Recall #2024010010
- Status: Remedy Available

Click here or call 1-800-367-6372 to locate an authorized Mercedes-Benz dealer near you to obtain more information about this recall

🕒 [Learn more about this recall](#)

Description: Mercedes-Benz AG ("MBAG"), the manufacture of Mercedes-Benz vehicles, has determined that certain Model Year ("MY") 2019-2021 A-Class, CLA, GLA and GLB (177, 118, 247 platform) vehicles might not be equipped with the inspection gauge for checking the wear of the rear axle brake pads. Furthermore, the respective information for using this inspection gauge might not be included in the owner?s manual. If an increased wear on the brake pads on the rear axle is not identified, this might increase the risk of a crash. An authorized Mercedes-Benz dealer will add the inspection gauge and enclose the supplemental owner?s manual information for using this inspection gauge on the affected vehicles.

If an increased wear on the brake pads on the rear axle is not identified, this might increase the risk of a crash.

Remedy: An authorized Mercedes-Benz dealer will add the inspection gauge and enclose the supplemental owner?s manual information for using this inspection gauge on the affected vehicles.

Glossary

Accident Indicator

CARFAX receives information about accidents in all 50 states, the District of Columbia and Canada.

Not every accident is reported to CARFAX. As details about the accident become available, those additional details are added to the CARFAX Vehicle History Report. CARFAX recommends that you have this vehicle inspected by a qualified mechanic.

- According to the National Safety Council, Injury Facts, 2021 edition, 5% of the 276 million registered vehicles in the U.S. were involved in an accident in 2019. Over 77% of these were considered minor or moderate.
- This CARFAX Vehicle History Report is based only on information supplied to CARFAX and available as of 1/8/25 at 3:04:29 PM (CST). Other information about this vehicle, including problems, may not have been reported to CARFAX. Use this report as one important tool, along with a vehicle inspection and test drive, to make a better decision about your next used car.

Damage Severity

Damage events result in one of the following severity levels:

- Minor: Generally, minor damage is cosmetic (including dents or scratches), may only require reconditioning, and typically does not compromise a vehicle's operation and/or safety.
- Moderate: Moderate damage may affect multiple components of the vehicle and may impair the vehicle's operation and/or safety.
- Severe: Severe damage usually affects multiple components of the vehicle and is likely to compromise the vehicle's operation and/or safety.

CARFAX recommends getting a pre-purchase inspection at a certified collision repair facility.

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.

Title Issued

A state issues a title to provide a vehicle owner with proof of ownership. Each title has a unique number. Each title or registration record on a CARFAX report does not necessarily indicate a change in ownership. In Canada, a registration and bill of sale are used as proof of ownership.

i CARFAX Warranty Check provides an **estimate** of this vehicle's remaining warranty coverage. It does not take into account some vehicle history events such as some title brands that may void the original manufacturer warranty or ownership transfers that may decrease warranty coverage. This warranty information is only valid for vehicles manufactured for the United States. Complete warranty coverage information is available for this vehicle at the MERCEDES-BENZ website.
